Mehedi Hasan

Web Developer & Support Engineer

Khulna, Bangladesh · hello@mehedims.com · +880 1957 594446 · mehedims.com

PROFILE

Web developer and technical support engineer working at the intersection of frontend development, WordPress systems, hosting operations and practical user support. 4+ years building fast, reliable websites that stay reliable long after launch.

EXPERIENCE

Zorn Ventures Limited - Technical Support Engineer

May 2026 - Present

Supporting the SatisfyHost and BengalCloud brands - helping customers resolve hosting and cloud-service issues through clear, dependable technical guidance.

- Hosting & cloud troubleshooting across VPS and shared hosting platforms
- Operate server and DNS infrastructure behind the hosting brands
- Assist customers with domain, DNS and email deliverability issues
- Clear, reproducible communication that turns tickets into solutions

TechZ IT - Chief Information Officer

2025

Led overall IT strategy, infrastructure management and digital transformation initiatives to improve system performance, security and scalability.

- Oversaw development teams and technology operations
- Ensured efficient project delivery, cloud integration and alignment with business goals
- Directed infrastructure upgrades that improved security, uptime and scalability
- Led digital transformation initiatives across the company's service lines

Independent · Upwork & Fiverr - Freelance Web Developer

2021 - Present

Delivering responsive websites, custom interfaces and technical improvements for remote clients worldwide.

- 15+ full-stack web applications and sites using Next.js, Laravel and React
- Architected a comprehensive academic ERP with Python and MySQL
- Specialised in WordPress speed optimisation and robust VPS management
- Launched my own products end to end - from Tools.BD network utilities to Laravel SaaS platforms

EDUCATION & CERTIFICATION

Diploma in Engineering - Computer Science Technology

Mangrove Institute of Science and Technology · 2023 - 2027 (expected)

NSDA - Web Design and Development for Freelancing, Level 3 (result published December 2025)
